Maps and Strategies
Can you and your wits alone save Zelda? This Map holds useful information to help you discover the Triforce fragments and rescue Zelda. You should only use the map and strategic tips as a last resort. If you believe in yourself and your inner strength, you will conquer Gannon and return peace to the land of Hyrule.

More winning tips for The Legend of Zelda will be included in the next Nintendo Fun Club Newsletter. If you are not already a member, join now. Send your name and address to:

The Overworld

Tips for tackling the Overworld enemies.

These enemies may be carrying rubies. Destroy them and get rich!

These enemies may be carrying bombs. If Link needs bombs, attack them.

Defeat Peahat and a heart may appear. Too tough, but don't let that stop you.

If you defeat the first Ghori after bumping torches and releasing others, you'll defeat them all and clean up!

Link can collect weapons such as the boomerang by defeating the enemy, then use the boomerang to pick up other items. It's too easy.

Gather your strength and you'll be capable of many things.

Use the candle to burn a tree. Sometimes things are hidden underneath.

Use a bomb to blow up a rock. (Who knows what you'll find?)

If you use enough candles to look for hidden treasures, you can move across large bodies of water.

Gather enough wisdom and you'll learn how to summon the wind and ride a tornado to the entrance of the Underworld.

There are many items to find and use. Did you find them all? Check off the ones you've got. Items not on the list:

- Wind
- Fire
- Water
- Ice
- Wisdom
- Power
- Courage
- Stamina
- Luck

Discover the secrets of the Overworld!
Tips for Underworld survival:

Tip 1: Is it really a dead-end?
- If you can't go forward, maybe you should try a bomb and make your own door!

Tip 2: Defeat all the enemies!
- Some rooms have hidden items which appear only after you have defeated all the enemy. Don't miss finding valuable treasure.

Tip 3: Attack the weakest point!
- Going too fast with huge monsters is not the healthiest activity. Look for their weaknesses:
  - Attack certain parts of their bodies and/or use certain items and you can defeat even the biggest monster. Get a clue from the old man!

Tip 4: What's this? Where are it?
- Remember where the secret underground passageways are. The larger the labyrinth, the more secret passageways there are. If you don't draw a map, you're sure to get lost.

How to Make an Adventure Map!
If you have successfully completed Levels 1 and 2, you will need to make your own Underworld maps from now on. If you notice, there is a map and compass hidden in each labyrinth. The map will help you discover the overall shape of the labyrinth. The compass will show you where the Triforce fragment is. Don't forget to look for the secret underground passageways within the higher level labyrinths. In some cases, you must find those passageways before you can proceed. Watch out for traps! Draw in each room as you go to keep track of things. You may need your map to guide a hasty retreat. The arrow indicates the entrance to the labyrinth.

Impa recounts Zelda's parting words...

Princess Zelda had anticipated the difficulty of finding the entrances to the level 7, 8, and 9 labyrinths. She gave the following clues to Impa who passed them on to Link:
- The mysterious sealed entrance to the level 7 labyrinth is in the brown, dead forest. Go to the farthest west fountain and do something special.
- Use the candle to burn trees and find the hidden entrance to the level 8 labyrinth. An old man who lives near the ocean can tell you which tree in the green forest covers the entrance.
- The two huge rocks high on Death Mountain are known by the people as "Spectacle Rock".
- Be patient. Use your learned skills and knowledge.
- Oh yes, some rooms in the labyrinths can only be reached through underground tunnels. Those tunnels can be discovered only by moving certain blocks, but first, destroy all the enemies in the room.
- Be strong and wise. Zelda awaits your rescue.

LEVEL 3 MANJI
In order to defeat the protector of this labyrinth, you need a particular item. Oh yes, bring some money.

LEVEL 4 SNAKE
Even if a Like Like steals your magic shield, strike with your sword. The old man will tell you the weakness of Goriya.

LEVEL 5 LIZARD
There will be many old women selling medicine in the Overworld. Make sure you buy some.

LEVEL 6 DRAGON
You've finally made it to the last labyrinth! You absolutely must make a map to avoid getting lost in the numerous secret passageways.

LEVEL 7 DEMON
A hungry Goriya will confront you. Watch for the dead-end room.

LEVEL 8 LION

LEVEL 9 DEATH MOUNTAIN

You asked for it. Here it is!
The Complete Guide to Level 1 and 2 Labyrinths!!
Study these two maps. There is much to be learned about the Underworld. Only the wisest will survive!

LEVEL 1 EAGLE

LEVEL 2 MOON

Link will find the second level labyrinth "Moon" in a clearing in the woods. You will be challenged by the Red Goriyas, who are tougher than the blue type. The Rope seems weak, but don't underestimate it. When it sees a direct path to Link, it attacks with lightning speed.

It guards the labyrinth "Moon" without rest. To defeat it, Link must....
